

# Mapping profiles of cognition, motivation and attention in young people with challenging behaviours

## What is it about?

We are interested in understanding how young people with challenging behaviours make sense of social situations.

## Who can take part?

Do you live in the UK?  
Is your child aged 10-16?  
Are they able to complete some fun activities on the computer?

If you answered yes, great news!  
You and your child can take part!

## What's involved?

**Step 1:** Parents will complete some questionnaires (30 minutes)

**Step 2:** Young people will complete activities on the computer. These can be done in one or two sessions (30 minutes each).

Your child will receive a £15 Amazon voucher for completing the study!

## How can you join?

To sign up for the study, just click on the link below:
