## Art & Design Curriculum Map

2025-2026	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 7	Skills Workshop	SKills Workshop	Skills Workshop	Skills Workshop	Skilla Workshop	Skills workshop
	7 elements of art: Colour,	Colour	Shape and Form	Texture		Value & Space
	Form, Line, Shape, Space,	Colour wheel-	3D shapes	Adding texture to a peice of	· ·	Printing techniques
	Texture, Value	complementary and	Constuction of 3D shapes,	art work		Shading
	Colour	harmonious colours	model making using paper	Mixed media	O, O,	Study work of relevant
	Pirmary, Secondary and	Blending	and tape	Warm and earthy colours	0,	artists
	tertiary colours.	Using different mediums, e.g		Study work of relevant	printing	
	Mixing and blending	pencils, coloured pencils,	Study work of relevant	artists	Study work of relevant	
	Study work of relevant	oil and chalk pastels	artists		artists	
	artists	Study work of relevant artists				
		arusts				
Voor 9	Class up	The Natural World	The Natural World	Portraits	Cubism	Abstract
Year 8	Close up Animals,bugs and cells	Flowers and Landscapes	Fossils and shells	(Link to maths)		Charateristics of abstract
	Use a view finder to	Pattern, shading and design	Pattern- repeating,	Proportion, and division	· · · · · · · · · · · · · · · · · · ·	design
	produce a close up image of		tessealtion, rotation	Grades of pencils	· ·	Colour, shape ,line and
	an object or animal.	perspective	Shape	Shading and tone	Colour	texture
	Shading	Form	Texture	Blending for skin tone	Pattern	Layering
	Texture	Add texture	Space	Study the work of relevant	Research using IT	Use personal creativity
	Study of work from relevant	Use IT to carry out research	Reflection	artists	Annotate work	Research using It and
	artists	Annotate work	Observational drawingand	Visit relevant galleries or	Study the work of relevant	annotate work
	Visit zoo or wildlife park	Study the work of relevant	printing	museums (Incl online)	artists	Study the work of relevant
		artists	Research and annotation		Visit relevant galleries or	artists
		Visit relevant galleries or	Study the work of relevant		museums (Incl online)	Visit relevant galleries or
		museums (Incl online)	artists			museums (Incl online)
			Visit relevant galleries or			
			museums (Incl online)			
Year 9	Cultural Identity	Cultural Identity	Cityscapes	Cityscapes		Pop Art
	e.g. Tingatinga art Day of the Dead and	e.g. Urban Identity,	Drawing	(Link to 3D design, Maths, English My Life My choice)		(Link to English Messages) Understand of examination
		Tingatinga, Day of the Dead,	Line Form	, , ,	Differences) Understand of examination	
	Aborignal Art	Aborginal Art		and various attachment		•
	Drawing,painting , mixed media	Integrate annotations into the creative process (AO3)	Planning Produce a title page,	techniques	-	Plan and produce a final piece
		Refine work produced (AO2)	mindmap, mood board	Mark making		Completion of final piece.
	board (AO1)	Mixed media	(AO1)	Produce a research page	artist (AO1)	completion of final piece.
	Begin to integrate	Drawing	Mixed media	(AO1)	Collect images and	
	annotations into the	Painting	Proportion and perspective	Refining creative ideasas	annotate	
	creative process	Print making	Study the work of relevant	work progresses (AO3)	Mixed media	
	Study the work of relevant	Study the work of relevant	artists	Study the work of relevant	Imagery	
	artists	artists	Visit relevant galleries or	artists	- '	Study the work of relevant
	Visit relevant galleries or	Visit relevant galleries or	museums (Incl online)	Visit relevant galleries or	artists	artists
	museums (Incl online)	museums (Incl online)		museums (Incl online)	Visit relevant galleries or	Visit relevant galleries or
					museums (Incl online)	museums (Incl online
Year 10	Skills workshops Recap	Skills Workshops	GCSE Sustained Project. Record Observations	GCSE Sustained Project.	•	GCSE Sustained Project.
	Using colour	Grades of pencils and how to use them	Explore through a range of	Record ideas, observations		Present a personal and
	Revisiting the the colour			and insights to intentions as		
	=					meaningful response that
	wheel	Shading and tone	2D and/or 3D process and	work progresses.	experimenting with	realises intentions and
	wheel Monochrome colours	Shading and tone Techniques for recording	2D and/or 3D process and media practical application	work progresses. Use specialist vocabulary	experimenting with appropriate media.	realises intentions and demonsratee and
	wheel Monochrome colours Combining, contrasting and	Shading and tone Techniques for recording observations	2D and/or 3D process and media practical application skills	work progresses. Use specialist vocabulary Study the work of relevant	experimenting with appropriate media. materials, techniques and	realises intentions and demonsratee and understanding of visual
	wheel Monochrome colours Combining, contrasting and matching	Shading and tone Techniques for recording observations Using a view finder	2D and/or 3D process and media practical application skills Independent studies	work progresses. Use specialist vocabulary Study the work of relevant artists	experimenting with appropriate media. materials, techniques and processes	realises intentions and demonsratee and understanding of visual language
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media,	Shading and tone Techniques for recording observations Using a view finder Use of framing	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or	experimenting with appropriate media. materials, techniques and processes Apply knowledge and	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists	work progresses. Use specialist vocabulary Study the work of relevant artists	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen	realises intentions and demonsratee and understanding of visual language
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media,	Shading and tone Techniques for recording observations Using a view finder Use of framing	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or	experimenting with appropriate media. materials, techniques and processes Apply knowledge and	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending,	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs)	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations,	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore differnt functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the creative processes	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained project	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work Refine ideas	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the creative processes Develop, explore and record	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained project	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the creative processes	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained project	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work Refine ideas	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the creative processes Develop, explore and record ideas	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained project	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work Refine ideas	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
Year 11	wheel Monochrome colours Combining, contrasting and matching Experimenting with media, tools techniques and processes. E.g. blending, layering, shading and stippling Study the work of relevant artists Visit relevant galleries or museums (Incl online)  GCSE Sustained Project-Final Piece Theme set dependent on the interests of the pupil Know exam assessment objective AO4 Realise personal intentions Know how to use the creative processes Develop, explore and record ideas Annotate	Shading and tone Techniques for recording observations Using a view finder Use of framing Use of highlights Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Mock exam (5hrs) Final piece to sustained project	2D and/or 3D process and media practical application skills Independent studies Use contextual sources e.g the work of other artists designers etc to inform their work Explore different purpose and intention Explore different functions of art, craft adn design Annotate work Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Record, ideas, observations, insights and independent judgements visuallly Use appropriate specialist	work progresses. Use specialist vocabulary Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Exam preparation Develop ideas through investigation Select and critically analyse sources Understand the creative and cultural connections to their work Refine ideas	experimenting with appropriate media. materials, techniques and processes Apply knowledge and undertanding to the chosen area of study Study the work of relevant artists Visit relevant galleries or museums (Incl online)  Final piece Realise personal intentions Critically reflect on personal work	realises intentions and demonsratee and understanding of visual language Critical reflection on
